***To Arrive March 25***

---

There is nothing that adds so much to the beauty and the value of your home as does a nice lawn. Modern practices have made lawn maintenance comparatively simple.

Ask for a free booklet on lawn making and maintenance.

White Dutch Clover .....	.50	1.55	7.50

## A Word to Gardeners and Farmers

Our stock is selected with the greatest possible care, both to trueness of variety and germination test. And while in common with other seedmen, we cannot guarantee the resulting crop, our customers may rest assured that we will exert every effort to get the most pure and best seeds obtainable for our stock. Our nearness to you makes both for the personal desire to please customers whome we know and often meet, and convenience to you in ordering and quick delivery. We maintain for the entire San Juan Basin a retail service where a welcome awaits you. We invite you to our stores whether you buy or not. Perhaps we can offer some profitable suggestions in going over your gardening or farming problems.

## VEGETABLE SEED

## NITRAGIN

### NITRAGIN—Inoculant for Legumes—

We encourage the inoculation of all legume seeds whether planted on old or new fields. It costs but a few cents per acre to convert legume seeds into fertilizer plants and it's risky to depend on natural inoculation.

(A-B) COMBINATION—Alfalfa, white & Yellow Sweet Clover, Hubam, Red, White Dutch, Alsike, Ladino, Strawberry and Crimson Clover.

## ARASAN COATED LEGUME & GRASS SEEDS NOW AVAILABLE

Thicker stands, stronger growing plants and uniform stands across the field are the benefits from treatment of grass and legume seeds with Du Ponts ARASAN. ARASAN applied with a Calkins Slurry Treater helps assure a good "catch" because it protects the tiny seeds against rot and seedling blight. We will treat with ARASAN for only 2 cents per lb., \$2.00 per hundred. Order your treated Grass & Legume seeds early to avoid delay at planting time.

## SEED DISINFECTANTS AND FUNGICIDES

<b>COPPER CARBONATE, 50%, 5 lb.</b> .....	2.85
Copper Carbonate kills smut spores, insures your crop by treating your seed for smut.	

### DU PONT SEED DISINFECTANTS—

Most growers are familiar with the destruction of potatoes, damping-off of all small seedlings and many similar diseases, which are surface seedborne. DuPont Seed Disinfectants pay large profits by destroying disease organisms before they can do damage by preventing seed rotting in cold, wet soils, by producing better stands of more vigorous plants, by increasing yields, and by improving crop quality.

**ARASAN**, for Grasses, Legumes, Seed Corn and many vegetable seeds.

## BEE SUPPLIES

Our stock is quite complete. We will be glad to quote you prices.

We pay Top Prices for Your Beeswax.

# BABY CHIX . . .

## Order

Everybody wants good chicks this year  
—so see us today to place your order.

## Early

Our chicks are strong and vigorous . . .  
bred to live, lay and pay.

They are bred for High Production.  
Come from Bloodtested Flocks.

Parent flocks get a special breeder ration . What a hen eats has a lot to do with vigor and livability of her chicks. Parent flocks are fed Purina Layena or Purina Breeder Lay Chow and grain. The rations pack the egg with nutrients needed during the 21 days in the shell plus a reserve to get the chick started with a bang.

### DAY-OLD CHICKS—F. O. B. DURANGO.

**HY-LINE HYBRIDS**—These are the first chicks bred like good hybrid corn—chicks that are bred to build your profits! Mature early, surge fast into peak production, and have the ability to lay 12-14 months without a let-up. Out-lay other breeds in farm tests by about an extra case of eggs a month per 100 birds.

	Straight Run	Pullets	Cock- erels
Delivery Oct. 5th thru April 16th	31c	62c	9c
Delivery April 10th thru Aug. 28th	29c	58c	9c
